

## What is Hospice Care?

Hospice is a specialized form of care focusing on quality of life, comfort, symptom management, and maintaining dignity for patients diagnosed with a terminal illness.

Our professionals focus on the **person**, not the disease, and are trained to provide care for **all** domains of well-being; physical, mental, spiritual, behavioral, and psychosocial.

Hospice is not only for the actively dying. It can increase quality of life and provide improved symptom management for those with a terminal health diagnosis.

## Why Choose Us

SPECIALIZED,  
PATIENT-  
CENTERED CARE

All medications, interventions, and education are based on the patient's specific needs, disease process and history.

24 HOUR  
ON-CALL NURSE

No Call Centers - speak to a real person.

LOCALLY OWNED  
& OPERATED

Helping our community care for the people they love.

SUPPORT FOR  
BOTH PATIENTS  
& FAMILIES

## Levels of Care

### • Routine Home Care

Hospice/comfort care can be provided in the patient's home, nursing home, or residential or assisted living center.

### • Respite Care

Allows patients to spend up to five days in a contracted nursing home or hospital to relieve the family for short periods of time.

### • General In-patient Care

Care in a facility for pain control or acute chronic symptom management which cannot be controlled in the home setting.

### • Continuous Care

Continuous home care may be provided during periods of crisis to maintain the patient in the home setting.

# Compassion for the Present. Support for the Future.

Caring Hands Hospice is an affiliate of Approve Home Medical Services and is locally owned and operated. We are committed to working in a partnership with the patient, family, and your personal physician to make the final period of life comfortable, dignified and peaceful. By honoring the hospice philosophy, we advocate for the patient's choice to receive comfort care when aggressive treatment/intervention is no longer possible or desired.
